

CRF Management System

The Engineering CRF Management System is now closed to new submissions. CRFs currently in the system will be available in read-only mode as the campus transitions to the new CRF system, Curriculog. If you require immediate assistance with a CRF, please contact the project team at curriculoghelp@ucmerced.edu or your curriculum manager.

Additional information about this project, including the implementation timeline, is available on the project's page at <http://senate.ucmerced.edu/curriculoginfo>.
